The Theme

Libraries have always been bastions of knowledge, acting as repositories of information and learning. However, with the rapid advancement of technology, the role of libraries in education has evolved significantly. The integration of new innovations and emerging technologies into libraries has the potential to revolutionize the way education is accessed, imparted, and experienced. This transformation aligns with the goals and aspirations of the National Education Policy, ushering in a new era of learning and knowledge dissemination.The National Education Policy (NEP) 2020 of India envisions a comprehensive and holistic transformation of the education system. It seeks to shift the focus from rote learning to skill development, from passive learning to active engagement, and from content-centered education to a more inclusive and learner-centric approach. The policy's emphasis on technology, innovation, and digital education underscores the need for libraries to adopt emerging technologies to fulfill its objectives effectively.

The integration of new innovations and emerging technologies into libraries is a pivotal step in realizing the vision of the National Education Policy. By embracing these technologies, libraries can transform into dynamic centers of learning, enabling students and educators to engage with knowledge in exciting and meaningful ways. As libraries evolve to meet the demands of the digital age, they contribute significantly to the holistic development of learners and the advancement of education in the 21st century.As we know that the libraries have historically played a crucial role in providing access to information and knowledge. With the advancement of technology, there is a growing need to integrate new innovations and emerging technologies into libraries to align with the goals of the National Education Policy.

Looking to the National Education Policy, in this seminar, incorporating the emerging technologies in libraries will explore the potential of libraries and information centres to enhance the educational landscape and access to information.As the library professionals we have to ensure that the adaptation of emerging technologies in libraries leads to transformation and empowerment and finally to positive, sustained development outcomes. In the same concern this seminar is a major forum focusing on new innovation and emerging technologies for libraries and National Education policy related issues. This major theme is further divided into sub-themes as detailed below:

- Challenges for Implementing New Technologies
- Artificial Intelligence (AI) and Block Chain Technique in Libraries
- Mobile Technologies and ChatGPT in Libraries
- Web, Data & Text Mining, Data Analytics-Tools & Technologies
- Social Media Analytics and Digital Advocacy
- Management of Big Data, Digitization and Preservation
- TQM Services, Institutional Repositories and Digital Humanities
- Reinventing Libraries for the Next User Generation
- Redesigning Libraries, Content Creation, MOOCS & OERs

In addition to the above sub-themes, there will be technical sessions and panel discussion sessions with participants and subject experts.

How to Submit Paper

Original papers on the above sub-themes or related themes are invited from students, researchers, academicians, LIS professional, managers and interested IT professionals. You are requested to submit an electronic copy of the full-length paper in English on **seminardlismlsu@gmail.com**on or before **January 25, 2024.**

The paper should also contain the author(s) name, title, organization, address, telephone, and E-mail address. All references should be presented according to the APA Style only.

All papers submitted shall be subjected to blind review by a technical committee. Based on paper evaluation report, paper shall be accepted for poster/oral presentation andBestwritten and Best presented Paper Award respectively in below categories each.

Best Paper Award

(A) For academician, professionals

(B) For Student/Research scholars

(C) For Private Institution professionals

About MLSU

Mohanlal Sukhadia University at Udaipur, Rajasthan (India) is A grade UGC recognized multi-faculty affiliating state university established by an Act in the year 1962 to cater the needs of higher education in Southern Rajasthan. The University has 36 departments under four constituent colleges. The university has more than 193 affiliated colleges with an enrollment of about 2.25 lakh students. As a mark of respect in the memory of late Sri Mohanlal Sukhadia the architect of modern Rajasthan, the university was renamed as Mohanlal Sukhadia University in 1984. The Department of Library and Information Science was started in the year 1975 as a separate department in the University College of Social Science & Humanities.In the year 1994 the department was upgraded to a PG department as Master in LIS course was started as a regular one-year programme. Subsequently in the session 1999, the facilities of Ph.D programme were initiated and considered as second full-fledges department having facility of UG, PG & Ph.D in the Rajasthan State. This department is first in the whole state of Rajasthan by which all the courses of LIS from Certificate to Ph.D are being run.

Udaipur

The city of lakes, Udaipur is a beautiful city situated in the lap of Aravalli Range of Rajasthan, India. Udaipur is regarded as one of the most romantic cities of the world and subsequently, also known as the "Venice of East". Udaipur has been capital of Mewar of centuries. It is the land of lake side scenic sights, hilltop fortesses, and luxuriant gardens with fountains. The surrounding Udaipur has many attractions such as world famous Jaisamand lake (50K.M.), Kumbhalgarh Fort (85K.M.), Ranakpur Jain Temple (90K.M.), Nathdwara (48K.M.), Chittorgarh (105K.M.). The climate of Udaipur is very pleasant in the month of July. The temperature varies between "10-15 Degree Celsius".
